

Statement of Purpose

I intend to apply for the post of Training and Placement student Associate in National Institute of Technology, Warangal for the academic year 2021-2022.

The responsibility of the associate in Center for Career Planning and Development (CCPD) has greatly captured my attention because one of the core desire and need of my colleagues and myself are to gain financial independence. There are good opportunities waiting for qualified students. I completely understand, how important it is for the students and the institute, regardless of restrictions due to Corona Pandemic. I believe that this would certainly give me an ample exposure to opportunities and test my skills.

After the 2020 pandemic lockdown, the family business started to decline. Unfortunately at this time, my father was in ill-health. I had the responsibility of managing business during those times without disturbing the college schedule. It gave me a chance to meet and interact with a variety of people. This was a totally new experience to me. Interaction with various individuals gave me new insight in opportunity in different fields. It helped me improve communication skills, especially when to say 'NO' and pay attention to small details. It gave me an ability to speak up for myself in a respectful manner. I learned, what to plan, how to organize, when to lead and where to control. This has completely contributed towards my intention to help in CCPD.

I am particularly familiar with the responsibility of dealing with paper works and writing proposal letters. I really believe that I can work with utmost honesty and patience in CCPD to help students utilize their abilities to meet expectations of organizations looking for bright candidates. I sincerely hope for a smooth conduction of placements and to help batch mates achieve their dream job.
